

a

3832 NSTCs

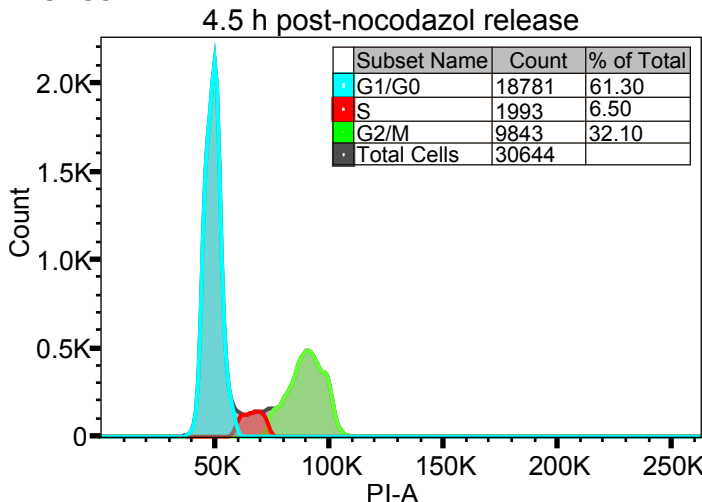

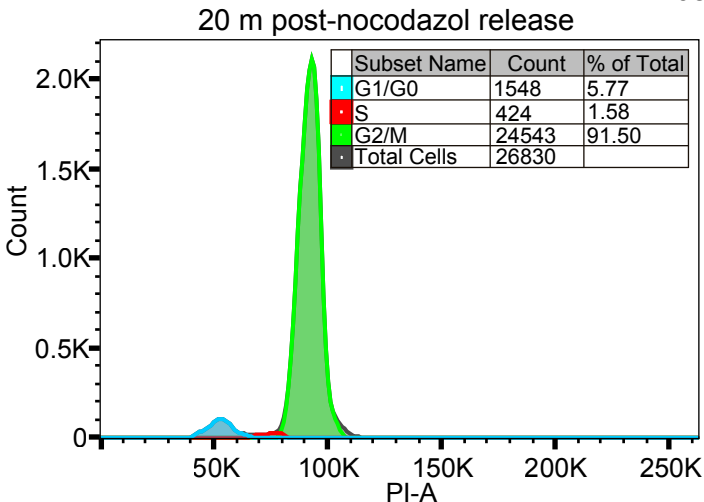

b

3691 NSTCs

c

08-387 NSTCs

Supplementary Figure S2. Nocodazole synchronization for GBM NSTCs. Representative cell cycle profiles for NSTCs from GBM 3832 (a), 3691 (b), and 08-387 (c) 20-30 minutes (m) post-release when cells are enriched in mitosis (G2/M) and 4-6 hours (h) post-release when cell are enriched in early G1 (G1/G0).
